

**Our President;
Rev. DR. Christine Elizabeth Coates**

I have spent the last 40 years studying, researching and teaching Science- of-Mind (SOM), New Thought, Metaphysics and spiritual classes. SOM has been the one consistent thing in my life. When I am in touch with other like- minded people everything runs smooth and I am at my happiest.

I am an ordained minister, SOM Practitioner, DR. of Religious Science, Certified Clinical Hypnotherapist, Open channel for Divine Mind, a Catalyst and so many other titles too numerous to list. These licenses are a result of my very inquisitive mind. I am a perpetual student.

It is my message to all that you are a student, a teacher and the master of your own life. The one greatest thing in life is to understand the law of cause and effect, how it works, and use it for the good of yourself and all others.
