

GLOBAL RELIGIOUS SCIENCE MINISTRIES

(GRSM) dba The Alliance for Spiritual

Understanding

CREDENTIALING POLICIES AND PROCEDURES

The following policies and procedures are established by the Board of Directors for individuals requesting Religious Science licensing through GRSM. Currently GRSM credentials practitioners and ministers in the spiritual discipline of Religious Science.

This is a living document. (A living document is one that is not concrete but allows flexibility to make changes as requirements and circumstances of the organization change.)

Teachers/Instructors shall include a \$5.00 administrative fee per student for which they are requesting certification. Included with the fee, should be the student's name, year of completion, teacher's name and the date of graduation. This information and fee should be sent to the credentialing chairperson. The chairperson will send names of all students to the person

making the certificates, and will forward checks to the treasurer and contact information to the membership team.

All individuals requesting licensing through GRSM must meet the standards set forth by the organization. Having completed the required class study requirements does not grant automatic licensing.

PRACTITIONER'S LICENSE (Religious Science)

A Religious Science Practitioner's License is a license verifying that the individual meets all requirements set forth by GRSM and is considered qualified to practice Science of Mind principles in their practices with Spiritual Mind Treatment. After being granted this license, the Practitioner is also qualified to teach SOM I and II.

Licenses are renewable annually.

To be granted a license, the student will have successfully completed SOM I, II and III and meet all other requirements in effect at the time the student entered the program. A returning student must meet all requirements in effect at the time he or she resumes coursework. The student shall complete at least 60 in-class hours for each course and shall complete all requirements the teacher has requested for all additional class hours that were not attended during the class year.

An enrollment application to enter Practitioner studies shall be completed and given to the teacher, who will forward to the Credentialing Committee. All students requesting acceptance into the Practitioner's program shall become Associate Members of GRSM and will actively participate on one of the Organization's committees.

SOM I: An introduction to and study of Science of Mind/Religious Science Principles and background.

SOM II: Continuation of the study of Science of Mind and Religious Science principles plus exploring and studying the works of other new thought teachers and authors.

SOM III: At this point the student should be living the SOM/Religious Science Principles and be demonstrating their understanding of the practices by actively using Spiritual Mind Treatment for themselves and others. (Treatments and results are to be documented). The student continues to embody the understanding of cause and effect and explore modalities of healing.

During this third year the student planning to request licensing will begin a relationship with the Board and become an Associate Member of the organization. Active participation in a local ministry/center is encouraged at this point in the process.

PRACTITIONER LICENSE APPLICATION PROCESS (Religious Science)

2. The student submits five (5) case studies to the teacher/instructor to review.

3. When the teacher/instructor agrees that the student is ready to proceed, an application package will be prepared and submitted to Rev. Lisa Gemmill Goldberg of the Credentialing Committee. Rev.
